Art Unit: 3764

The following is an examiner's statement of reasons for allowance: The prior art of Fuller, Sr. (884) and Fuller, Sr. (063) fail to show or teach singularly or in combination an exercise device comprising a weighted arm pivotally mounted at one end to upright members, an elongated lift arm pivotally mounted at one end to said vertical members, a horizontal shaft having at least three sprockets, a lower sprocket rotatably mounted on said frame adjacent a lower end of said spaced upright members, and a first chain secured at a first end on said upper central sprocket and wrapped around a segment of said lower central sprocket and secured at a second end to said lift arm, wherein when said lift arm when pivoted upward pulls upward on said weighted arm to pivot it upward..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are not done by a component drafts person they seem to be photo's. Applicant is advised to employ the services of a competent patent drafts person outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the overall weighted leverage devices of Stearns, Telle Johnston et al. Lundgren and Jones.
